

Japanese Maples

Plant Name	Description	Size	Form	Color
Acer palmatum 'Ao kanzanshi'	An upright, narrow vase shaped tree with variegated leaves. The light green leaves are edged in a creaming with both colors during darker during the summer. A combination of gold and orange fall color.	20 X 10	Upright	Variegated
Acer palmatum 'Atrolineare'	An upright tree with deeply lobed leaves that hold excellent hues of a purplish red color that holds through the heat of summer. As fall approaches so does the scarlet leaf color.	13 X 8	Upright	Purple/ Red
Acer palmatum 'Beni Kawa'	This upright maple has red to coral bark coloration that does not fade with age. The green leaves turn a beautiful yellow color in the fall.	20 X 20	Upright	Green
Acer palmatum 'Bloodgood'	The most popular of Japanese Maples. This robust, upright tree has large deep red 5 lobed deeply cut leaves. It retains the color throughout the heat of the summer and has crimson fall color. The tree produces scarlet winged seeds. Moderate growth rate.	15 X 15	Upright	Red
Acer palmatum 'Boskoop Glory'	This tree develops a round canopy covered with wine red palmate leaves. The red leaves turn to a bronze-green color in summer only to change again in the fall to an amazing orange. This tree is very heat tolerant .	15 X 15	Upright	Red/ Green
Acer palmatum 'Burgundy Flame'	Showy burgundy red foliage that lasts all summer long. A bright crimson color appears with the cooler temperatures of the fall.	15 X 12	Upright	Red
Acer palmatum 'Higasayana'	One of the most beautiful variegated maples. Red buds in spring open to pink and cream leaves. The leaves turn green with cream edges in the summer. The tree has a vase shape growth habit staying quite narrow. Moderate growth.	10 X 8	Upright	Variegated
Acer palmatum 'Hogyoku'	The upright sturdy maple is composed of shiny rich green star shaped leaves. The orange fall color is reason enough to grow this tree.	10 X 15	Upright	Green
Acer palmatum 'Kinran'	This tree has an open branching structure with leaves of purple, orange, and green in the spring. The leaves turn dark green during the summer before the amazing golden fall color appears.	12 X 12	Upright	Green
Acer palmatum 'Kiyohime yatsubusa'	A dwarf variety of maple with very small leaves. The leaves are a light green with a pink tint in spring.	6 X 8	Cascading	Green
Acer palmatum 'Koshibori'	The five lobes leaves are green with orange edges. During the summer the leaves appear to be speckled with a cream color. The multi colored leaves then turn a variety of orange and red tones in the fall.	6 X 6	Upright	Green

Japanese Maples

Plant Name	Description	Size	Form	Color
Acer palmatum 'Nigrum' Black Japanese Maple	This tree is known for its black red leaves that appear in the spring. As the temperatures rise the leaves turn a more purple-red color. This slow growing tree is great for an accent or a potted plant.	10 X 12	Upright	Purple/ Red
Acer palmatum 'Nishiki momiji'	This upright green maple has light green leaves that are deeply lobed. The leaves turn a bright orange to red color in the fall. The tree also has rough bark that creates great winter interest.	15 X 15	Upright	Green
Acer palmatum 'Orange Dream'	This tree is a rare cultivar in the trade with a unique narrow upright growth habit. The leaves are a yellow orange color that stand out against the green bark. The leaves mature to green and the tree grows quite slowly.	10 X 6	Upright	Orange/ Green
Acer palmatum 'Osakazuki'	This is an old cultivar noted for its intense crimson fall color. The leaves are large with seven lobes and green in color. It is a large sturdy tree with a moderate growth habit.	15 X 15	Upright	Green
Acer palmatum 'Oshio beni'	This is a medium sized Japanese maple. The bright red leaves that turn crimson in the fall are deeply lobed and finely serrated. Moderate growth habit with an outstanding shape.	10 X 12	Upright	Red
Acer palmatum 'Pine Bark'	This upright maple has interesting corky bark unlike many of the varieties. The spring leaves are a light green with a hint of red. Turning a bright green during the summer the leaves finally change to yellow in the fall.	15 X 15	Upright	Green
Acer palmatum 'Red Baron'	Deeply cut leaves emerge a dark red in the spring. With summer the leaves change color to a coppery green. Fall brings intense shades of reds and purples to the maple.	15 X 15	Upright	Green
Acer palmatum 'Coonara Pgymy'	This dwarf maple has a dense rounded growing habit. The light green leaves have pink edges. The leaves put on quite a show turning yellow, then orange, and finally a deep coral color in the fall.	5 X 5	Rounded	Green
Acer palmatum 'Sangokaku' Coral Bark	This cultivar is popular for its flaming coral-red bark. The leaves are a soft green with 5 lobes deeply cut. The leaves turn to a gold color in fall. Year round interest. Moderate growth rate.	15 X 15	Upright	Green
Acer palmatum 'Sekka yatsubusa'	The leaves emerge green in the spring with orange edges, by summer the colored edges are lost. The narrow lobed leaves take on a golden yellow color in the fall.	12 X 12	Upright	Green
Acer palmatum 'Shishigashira' Lion's Head	This tree has distinctive upright branches thickly covered with small deep green crinkled leaves. The leaves turn a brilliant orange very late in the fall. Slow growth rate.	10 X 8	Upright	Green

Japanese Maples

Acer palmatum 'Sharp's Pygmy'	This miniature maple is grafted on a 24" standard trunk. This tree has a rounded growth habit with green leaves on very short stems. The green leaves turn a brilliant red color in the fall.	5 X 5	Rounded	Green

Japanese Maples

Plant Name	Description	Size	Form	Color
Acer palmatum 'Suminagashi'	One of the more vigorous growing maples, reaching heights of 15 feet. The deeply lobed leaves emerge bright red, changing to maroon and green before finally reaching the brilliant crimson fall color.	15 X 15	Upright	Green
Acer palmatum 'Trompenburg' Dragon Paw	This tree has shiny deep-purple leaves that consist of 5 lobes deeply cut. The leaf edges are rolled giving a finger-like effect. Moderate growth habit.	15 X 10	Upright	Purple/ Red
Acer palmatum 'Tsuchigumo'	The new growth of leaves is a rusty red color quickly changing to green during the summer. The leaves then change to shades of yellow and orange during the fall.	12 X 12	Upright	Green
Acer palmatum 'Tsukushigata'	One of the darkest of all the red leaf upright maples. The leaves hold the dark reddish color well throughout the summer, turning a scarlet color in the fall.	12 X 10	Upright	Purple/ Red
Acer palmatum 'Twombly's Red Sentinel'	This is a very close relative of the 'Bloodgood' variety. This tree creates a dense vase shape, that keeps its burgundy color throughout the summer. It also holds the colorful leaves longer in the fall than any other variety.	8 X 15	Upright	Red
Acer palmatum 'Ukigumo' Floating Cloud	This is a striking cultivar with bright white variegation on a light green leaf. With an upright moderate growth habit this is a great tree for contemporary settings.	8 X 6	Upright	Variegated
Acer palmatum var. atropurpureum 'Burgundy Lace'	This upright growing maple is known for the wide canopy it develops. The leaves are deeply divided with a beautiful burgundy-red coloration.	12 X 12	Upright	Red
Acer palmatum var. dissectum 'Ever Red'	A very popular older variety of Japanese Maples. The delicate finely-dissected 5 lobed leaves provide a great texture. The new leaves and shoots are covered with fine, silvery hairs. Moderate growth rate.	10 X 10	Cascading	Red
Acer palmatum var. dissectum 'Beni Maiko'	The name means 'red haired dancing girl' which describes this dwarf tree perfect. The small leaves emerge a brilliant red changing to a pinkish red during the summer	6 X 8	Cascading	Red
Acer palmatum var. dissectum 'Virdis'	This cascading maple has green leaves that turn a brilliant gold color in the fall.	8 X 8	Cascading	Green
Acer palmatum var. dissectum 'Garnet'	This cascading cultivar is more upright than most typical lace leaf varieties. The large red leaves consist of 7 to 11 narrow lobes that are deeply cut. Moderate growth habit.	10 X 10	Cascading	Red
Acer palmatum var. dissectum 'Orangelloa'	This tree has a weeping growth habit. The finely dissected leaves emerge orange in the spring fading to a light green throughout the summer.	6 X 6	Cascading	Green

Japanese Maples

Plant Name	Description	Size	Form	Color
Acer palmatum var. dissectum 'Red Dragon'	A newer variety that shows a strong branching structure. The new red leaves fade to green during the summer, only to become bright red again in the fall. Slow growth rate.	5 X 5	Cascading	Red
Acer palmatum var. dissectum 'Crimson Queen'	One of the finest deep red, lace leaf selections. This dense, broad mounding plant retains its red color throughout the summer. The leaves consist of 5 to 9 narrow lobes deeply cut. Moderate growth rate.	8 X 8	Cascading	Red
Acer palmatum var. dissectum 'Red Dragon'	This small maple keeps is one tough maple. The deeply cut leaves emerge a scarlet color in the spring and keep a crimson color throughout even the hottest summer. This maple also keeps great color in the shade.	6 X 6	Cascading	Red
Acer palmatum var. dissectum 'Select Red'	This tree produces persistent purple-red lace leaf foliage throughout the growing season. Then in the fall the leaves turn a brilliant crimson color. The weeping growth habit is not as strong as the 'Crimson Queen'.	12 X 12	Cascading	Red
Acer palmatum var. dissectum 'Tamukeyama'	This tree creates great interest with the ability to maintain deep purple red color all summer. Long cascading branches covered with coarsely dissected leaves set it apart from other varieties.	8 X 8	Cascading	Purple/ Red
Acer palmatum var. dissectum 'Waterfall'	This bright green leaved, cascading maple is gorgeous and withstands the hot summers well. The aged branches take on a twisting habit, creating a visual interest year round. This tree grows faster and stronger than the similar 'Crimson Queen'	10 X 12	Cascading	Green
Acer palmatum 'Wolff' Emperor 1	This strong upright tree has 5 lobed leaves that are deeply cut. The leaves are almost transparent with beautiful deep red color. It is very similar to a 'Bloodgood'. Moderate growth rate.	15 X 15	Upright	Red
Acer palmatum 'Wou nishiki'	The leaves emerge a light green with rose colored edges in the spring. Throughout the summer the leaves loose the rose edges and remain green until fall. The bright crimson color of the leaves in the fall is an eye catcher.	12 X 12	Upright	Green
